

产品说明书

Product Specification

产品名称 Product Name	Proteinase K
货号 Catalog Number	CSB-DP437A
组成成分 Presentation	Liquid,dissolved in Tris-HCl, pH 7.5-8.0, 10%glycerol,0.02-0.2%NaN ₃
来源 Source	Recombination(Pichia)
配置说明 Notice	<ol style="list-style-type: none">1. Molecular biology grade of Proteinase K is not a sterile preparation. If used for cellular or sterile experiments, please pre-treat with 0.22μm filter for sterilization.2. Please wear mask, lab-gown and disposable gloves for your safety.3. Recommend using low protein adsorption polyethersulfone (PES) or polyvinylidene fluoride (PVDF) membranes for all sterilisation processes.
存储条件 Storage	Aliquot and store at 2-8 °C. Avoid repeated freeze / thaw cycles. For a long term storage, please keep it at -20°C.
有效期 Valid Period	2-8°C for 18 months, -20°C for 2 years
相对纯度 Purity	90%±5% by SDS-PAGE
运用 Application	Genomic DNA Purification Kit, RNA Purification Kit, Gene diagnostic kit, IHC, ISH and other possible application.
