## Product Specification

|                         |                                                                                       |
|-------------------------|---------------------------------------------------------------------------------------|
| 产品名称<br>Product Name    | Cholic acid -OVA conjugate                                                            |
| 货号<br>Catalog Number    | CSB-DM008O1                                                                           |
| 载体蛋白<br>Carrier Protein | Ovalbumin (OVA)                                                                       |
| 保存缓冲<br>Storage buffer  | 10 mM PBS, pH 7.4                                                                     |
| 存储条件<br>Storage         | Aliquot and store at $\leq -20^{\circ}\text{C}$ . Avoid repeated freeze / thaw cycles |
| 有效期<br>Valid Period     | $-20^{\circ}\text{C}$ for 18 months                                                   |
| 纯化<br>Purification      | Dialysis                                                                              |
| 运用<br>Application       | Immunogen、Calibrator                                                                  |
